COVER ME WARRANTY.

Warranty Plan Summary.

Mechanical and electrical warranty cover for cars, vans and motorcycles, from your very first day.

Cars. Vans. Motorcycles.

Petrol & Diesel. Hybrid. Electric.

Day One Cover.
No waiting period or minimum mileage.

No Excess.
Nothing to pay on approved repairs.

Up to £6,000.
Per approved repair with Enhanced Cover.

Unlimited Repairs.
No limit on the number of repair requests.

This booklet is a summary of the main plan features. Full Warranty Plan Terms, eligibility requirements, limits and exclusions apply.

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

PEACE OF MIND FROM DAY ONE.

Welcome to Cover Me Warranty.

Unexpected repair bills can arrive at the worst possible time. A Cover Me Warranty Plan helps protect you from the cost of mechanical and electrical failures, with broad cover for the factory-fitted parts that keep your vehicle on the road.

Whether you drive a small hatchback, a family SUV, a van or a motorcycle, you get the same clear level of core cover for the systems relevant to your vehicle. There are no cover tiers to compare and no add-ons to buy.

Your Plan at a Glance.

Day One Cover.

Make a repair request from your very first day of cover, with no waiting period and no minimum mileage to cover first.

No Excess.

There's no excess to pay on an approved repair, so there's no upfront fee standing between you and getting back on the road.

Generous Repair Limits.

Up to £3,000 per approved repair for cars and vans, or £2,000 for motorcycles. Enhanced Cover doubles your limit.

Unlimited Repairs.

No limit on the number of repair requests you can make during your plan, so you can come to us every time something goes wrong.

Wear and Tear Included.

Covered where a part has worn through normal use to the point of a confirmed failure.

Diagnostics and Labour.

Reasonable authorised diagnostics and labour costs are included within your repair limit.

One Level of Cover.

The same core cover for everyone, with no confusing cover levels or add-ons to buy.

Hybrid and Electric Too.

Including high-voltage batteries, drive motors, inverters and on-board charging systems.

Who It's For.

- **Cars, vans and motorcycles**, with motorhomes and campervans covered just like vans (habitation equipment excluded).
- **Personal or business use**, for vehicles registered and normally kept in the UK, with repairs carried out here.
- **Petrol, diesel, hybrid and electric** vehicles all get the same high level of cover, with the same repair limits and no add-ons needed for high-voltage systems.
- **Older vehicles welcome**: cars up to 14 years old and 130,000 miles when you buy your plan.

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

Mechanical and Electrical Cover.

Your plan covers the **factory-fitted mechanical and electrical components** of your vehicle when they suffer a sudden and unexpected failure, including wear-and-tear faults that lead to a confirmed failure. Core systems and everyday features are covered in the same way, from the engine and gearbox to central locking, sat nav and parking sensors.

- Engine and internal components
- Turbochargers and superchargers
- Cooling and heating systems
- Air conditioning and climate control
- Ignition systems
- Lighting systems
- Multimedia and infotainment
- Gearbox and transmission
- Fuel delivery systems
- Braking systems
- Starting and charging
- Safety systems, including airbags
- Body electrical and convenience
- Security and access systems
- Drivetrain and clutch assemblies
- Air intake, emissions and DPF
- Suspension and steering
- ECUs and sensors
- Wiper and washer systems
- Driver assistance systems
- Convertible roof and sunroof

These are examples of covered component groups, not a complete list. Every factory-fitted mechanical and electrical part is covered unless it is excluded in the Warranty Plan Terms.

Wear and Tear Included.

Wear and tear is included as standard. Parts naturally wear with age and mileage. When a covered part has worn to the point that it has **failed or lost its intended function** and needs repair during your plan, it can be covered, up to your repair limit.

That means gradual failures are covered, not just sudden breakdowns, such as a clutch, wheel bearing or turbo that has failed through normal use.

Worn parts that are still working are covered once they actually fail, while service items like brake pads and tyres remain part of normal upkeep and aren't covered.

Also Included as Standard.

MOT Failures.

If a covered fault is the only reason your vehicle fails its MOT, the repair of that part is eligible for cover under your plan.

Consequential Damage.

If a covered part fails and damages another covered part, that damage can be included in the same repair request.

Roadside Recovery.

If you break down, reasonable recovery costs to a garage may be reimbursed where the repair is approved, within your limit.

Quality Parts.

Approved repairs normally use manufacturer-approved parts, or OEM or quality reconditioned parts where suitable for your vehicle.

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

Hybrid and Electric Vehicles.

Cover Me Warranty is built for modern vehicles. Eligible hybrid and electric vehicles get the same cover for their relevant mechanical and electrical systems as petrol and diesel vehicles, **plus the specialist high-voltage components** that power them, all included as standard with no add-ons to buy.

Drive and Power.

- Hybrid and EV drive motors
- Reduction gear and e-axles
- Power control units and inverters
- DC-DC converters
- Hybrid transmission components

Battery and Charging.

- High-voltage battery failure
- Battery management and cell monitoring
- On-board charger and charging ports
- High-voltage cables and junction box
- Battery thermal management

Control and Safety.

- Hybrid and EV control electronics
- Regenerative braking
- Brake-by-wire systems
- Heat pump and cabin heating
- High-voltage safety and isolation monitoring

Battery cover explained. A sudden internal failure of the high-voltage battery that stops the vehicle starting, driving or charging is covered. Gradual loss of battery capacity or range through age, mileage and use is normal battery degradation and is not covered.

Motorcycles Covered Too.

Petrol, hybrid and electric motorcycles are covered for their factory-fitted mechanical and electrical systems, including:

- ✓ Engine or motor and drivetrain
- ✓ Fuel, induction and exhaust systems
- ✓ ECUs, sensors and electrics
- ✓ Instruments, lighting and ignition
- ✓ Clutch, gearbox and final drive
- ✓ Cooling and charging systems
- ✓ Rider assistance and stability systems
- ✓ Suspension, steering and brakes

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

Generous Repair Limits.

Your repair limit is the most we will contribute towards each approved repair, **including parts, labour, authorised diagnostics and VAT**. There is no overall limit on the number of repair requests you can make during your plan.

CARS AND VANS.		MOTORCYCLES.	
£3,000 Standard cover	+ **£6,000** With Enhanced Cover	**£2,000** Standard cover	+ **£4,000** With Enhanced Cover

Per approved repair. Faults that share the same underlying cause are treated as one repair and share one limit.

Enhanced Cover.

Want extra peace of mind for bigger repairs? Enhanced Cover **doubles your repair limit** to £6,000 for cars and vans, or £4,000 for motorcycles. Everything else stays exactly the same. Add it when you buy, or upgrade within 30 days of your purchase date.

No Excess to Pay.

There is **no excess** on an approved repair, so there's no fee to pay before a covered repair can go ahead. If a repair leaves a worn part in better condition than before, we may ask for a fair contribution. We always explain this clearly before any work is authorised.

Choosing a Garage.

- **Most repairs** are carried out by a reputable, VAT-registered independent garage, the quickest and most practical route for common faults.
- **Your choice of garage.** Suggest your own, or ask us to recommend a reputable garage near you.
- **Specialist support.** If your vehicle or fault needs a manufacturer specialist, we can authorise one.
- **Main dealers** are considered where a repair can only be carried out by a main dealer.
- **Mobile repairs** may be approved, depending on your location and the fault, so the repair can come to you.
- **Costs agreed first.** We confirm the labour time and rate we can authorise before work begins.
- **We pay the garage directly** once your repair is authorised, so you only pay for anything not covered.

Your Cover Doesn't Reduce as Your Vehicle Ages.

Age and mileage limits only apply when you buy your plan. Once your cover is active, your vehicle can go past those limits and **your covered parts stay exactly the same** for the whole plan, subject to fair use. Whether you choose 12, 24 or 36 months, your repair limit and covered parts are the same on the last day of your plan as they were on the first, so your vehicle is just as protected as it gets older.

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

Is My Vehicle Eligible?

Your vehicle only needs to meet these age and mileage limits on the day you buy your plan.

Cars.

Up to 14 years old
Up to 130,000 miles

WHEN YOU BUY YOUR PLAN

Vans.

Up to 10 years old
Up to 100,000 miles

WHEN YOU BUY YOUR PLAN

Motorcycles.

Up to 11 years old
Up to 60,000 miles

WHEN YOU BUY YOUR PLAN

Covered as your vehicle ages. Once your plan is active, your vehicle can go past these age and mileage limits and stay covered for the full term of your plan, with the same covered parts throughout, subject to fair use of up to 2,000 miles a month on average (24,000 miles a year).

Plans are not available for vehicles used for hire and reward (such as taxis, driving instruction, courier or delivery work), vehicles modified from the manufacturer's specification, specialist conversions, imports not built to UK specification, or vehicles worth more than £100,000. Habitation equipment in motorhomes and campervans is not covered.

Choosing Your Plan.

12, 24 or 36 Months.

Choose the length of cover that best suits you and your vehicle.

Choose Your Start Date.

Start your cover today, or choose a date up to 7 months ahead.

Flexible Ways to Pay.

Pay in full, or spread the cost with Payment Assist or Bumper.

Peace of Mind.

- **14-day cooling-off.** Cancel within 14 days for a full refund, as long as no repair request has been approved or paid.
- **Changing vehicle?** Ask to transfer your plan to another eligible vehicle. Any transfer fee is confirmed first.
- **Your cover is locked in.** If our terms ever change in a way that would reduce your cover, it won't apply to your current plan.
- **Fair decisions.** If you're unhappy with a decision on a repair request, our management team will review it.

Paying monthly? Finance through Payment Assist or Bumper is a separate agreement with that provider. After the 14-day cooling-off period there is no automatic right to cancel your plan.

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

Keeping Your Cover Valid.

A few simple steps keep your plan valid, so you get the full benefit of your cover whenever you need it.

Activate Within 30 Days.

Confirm your vehicle details and starting mileage within 30 days of purchase, even if your cover starts later. Cover begins once activation is complete.

Keep Up With Servicing.

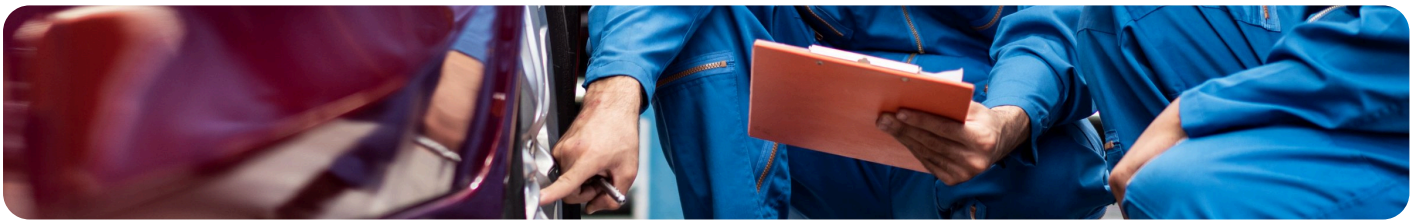

Service your vehicle on the manufacturer's schedule at a reputable garage using OEM or manufacturer-approved parts, and keep the invoices.

Service Overdue?

If there's no up-to-date service record when you buy, complete a full service within 30 days of purchase and keep the invoice as proof.

Contact Us First.

Speak to us before any repairs, parts orders, dismantling or diagnostics beyond basic fault finding, as unauthorised work may not be covered.

What's Not Covered.

Your plan covers almost every factory-fitted mechanical and electrical part. Like every warranty, there are some things it doesn't cover, and we'd rather you knew now, so there are no surprises later:

- **Service and consumable items**, such as tyres, brake pads and discs, bulbs, filters, wiper blades, fluids, belts, 12V batteries and keys.
- **Routine maintenance**, adjustments and parts that are worn or advised for replacement but have not failed, such as service or MOT advisories.
- **Pre-existing faults** that were present or developing before you bought your plan, whether or not you knew about them at the time.
- **Accident, impact or misuse**, including neglect, misfuelling, racing, off-road use and non-standard modifications.
- **Water, corrosion and environmental damage**, including flooding, standing water, car washes, water ingress, contamination and rust.
- **Body, trim and cosmetic items**, such as glass, panels, paint, door lock barrels, seals and upholstery. Central locking is still covered.
- **Battery degradation** through age, mileage or use, and charging cables, on hybrid and electric vehicles. Battery failure is covered.
- **Knock-on costs**, such as hire cars, travel or lost earnings, and anything covered by another warranty, guarantee or insurance policy.

Repair requests made in the first 30 days or 1,000 miles for non-essential features, such as comfort or infotainment, are checked carefully to confirm the fault is new. The full list of exclusions is in the Warranty Plan Terms.

V2.0 · NOVEMBER 2026. © 2026 Cover Me Warranty Ltd. All rights reserved.

Making a Repair Request.

1. **Tell Us What's Happened.**
   Call **0161 568 3892**, email **repairs@coverme-warranty.co.uk** or start a request in your online account.
2. **Choose a Garage.**
   Use a reputable VAT-registered UK garage. Suggest your own, or we can recommend one.
3. **Get Authorisation.**
   The garage checks the fault and sends an estimate. We confirm what we can approve before work starts.
4. **Back on the Road.**
   The garage completes the authorised repair, and we aim to pay the garage directly for you.

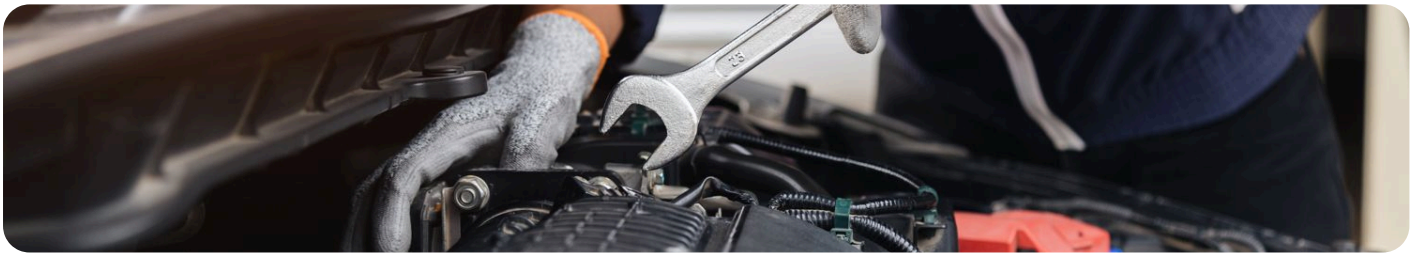

Breakdown out of hours? You can arrange urgent help at your own risk, keep every receipt and contact us as soon as possible.

A Fair and Flexible Approach.

Our Warranty Plan is a discretionary product. Our terms give clear guidance, but we know vehicle problems don't always fit neatly into categories, so every repair request is assessed fairly, case by case, with the flexibility to help where it's fair to do so. Our goal is always to get you back on the road quickly and stress-free.

What to Expect.

- **Have ready** your mileage, a dashboard photo, service history and any diagnostic report. It helps us move faster.
- **Nothing goes ahead** beyond basic fault-finding until we authorise it, so there are no surprise costs.
- **Any costs not covered**, such as amounts above your limit or a betterment contribution, are always explained first.

Simple, Clear Cover From Day One.

- ✓ One clear level of cover
- ✓ No excess to pay on repairs
- ✓ Unlimited repair requests
- ✓ Wear and tear included
- ✓ Diagnostics and labour included
- ✓ Hybrid and electric covered
